

POLICE CYBER CLUB

The Police Cyber Club was initiated in our college on 4.6.2021 with students and faculties from various departments. The main objective of this club is to create and educate awareness to the student community about cybercrimes using social media technology. In that group the district crime branch police authorities are also involved. They share their knowledge and experience every day. The scope of this club is to gain more knowledge about cyber crimes and reduce the cyber crimes in college students' level. The following table shows the list of members in our college Police Cyber Club.
