#### Relationship Matrix for Course Outcomes (COs) Programme Outcomes (POs) Programme Specific Outcomes (PSOs)

— The Programme Outcomes (POs) / Programme Specific Outcomes (PSOs) are the qualities that must be imbibed by the Students by the time of completion of their programme. At the end of each programme the POs / PSOs assessment is done from the Course Outcomes (CO) attainment of all curriculum components. The POs / PSOs are framed based on the guidelines of LOCF. The POs for UG programmes and POs for PG programmes are framed by the College. The PSOs are framed by the respective departments and are Programme Specific.

— For each Course, the Course Outcomes to be achieved at the end of the course are given in clear terms. These Course Outcomes are framed to achieve the POs / PSOs. All Course Outcomes shall have linkage to POs / PSOs in such a way that the strongest relation has the weightage of 3 and the weakest is (this relation) defined by using the following table:

Mapping	<40%	≥40% and <70%	≥ 70%
Relation	Low Level	Medium Level	High Level
Scale	1	2	3

Mean Scores of COs = Sum of values Total № of POs & PSOs		Mean Overall Score = Sum of Mean Scores Total № of Cos	
Result	Mean Overall Score	<1.2	#Low
		≥1.2 and < 2.2	#Medium
		≥2.2	#High

— If the mean overall score is low, then the faculty who is in-charge of the course has to redesign the particular course content so as to achieve high level Mean Overall Score.
